## This Months Top Tip

### Write a First Draft

Getting something down on paper can be the hardest part, so we recommend starting with anything! It doesn't have to look good, and it certainly will not be perfect, but it's a work-in-progress and you have to start somewhere. After you've made a plan and an outline and you've looked at your brainstorm, get your ideas down on paper. As long as you follow the first tip and allow plenty of time, you will have the chance to tweak, polish and refine later.
